About Ascend2 16
Creating compelling content for social media marketing purposes is not only the most effective tactic used, it is also the most difficult tactic to execute.

What types of content are marketers using and how are they using them to achieve objectives?

To find out, Ascend2 and our Research Partners fielded the Social Media Marketing Trends Survey and completed interviews with 294 marketing, sales and business professionals from around the world. We thank them for sharing their valuable insights with you.

The charts in this edition of the study titled *Social Media Marketing Trends Survey Summary Report* represent the average of all market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy planning and presentation materials.
