Methodology
Ascend2 benchmarks the performance of marketing technology, strategies and tactics using a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and research subscribers during the week of November 26, 2017.
An effective digital marketing plan contains a series of tactics used to achieve your most important marketing objectives.

**Sounds simple, but what will an effective digital marketing plan look like in 2018?**

To find out, Ascend2 and our Research Partners fielded the 2018 Digital Marketing Plans Survey. We applaud the marketing influencers responding to this survey for sharing their valuable insights with us, and you.

This Survey Summary Report, titled *2018 Digital Marketing Plans*, represents the average of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.

Enjoy!
For 18% of marketing influencers, important objectives for a digital marketing plan to achieve are increasing lead generation and increasing sales revenue. 17% of marketing influencers point to improving brand awareness as a most important digital marketing plan objective.

What are the most important OBJECTIVES for a digital marketing plan to achieve?

- Increase lead generation: 18%
- Increase sales revenue: 18%
- Improve brand awareness: 17%
- Increase website traffic: 14%
- Improve user experience: 14%
- Improve data quality: 11%
SUCCESS ACHIEVING OBJECTIVES

A 57% majority of marketing influencers consider a digital marketing plan very successful at achieving important objectives, describing it as best-in-class. Another 47% consider it somewhat successful. Only 2% pessimistically describe digital marketing planning as unsuccessful at achieving objectives.

Which best describes the SUCCESS of a digital marketing plan at achieving important objectives?

- Very successful (best-in-class): 57%
- Somewhat successful (above average): 41%
- Somewhat unsuccessful (below average): 1%
- Very unsuccessful (worst-in-class): 1%
A most critical challenge to the success of a digital marketing plan is data quality. Without data quality improvements, advances such as marketing personalization can not be practiced. Lead generation and user experience are also critical challenges for 15% of the marketing influencers surveyed.
Objectives that are significantly more important than challenging to achieve, such as increasing sales revenue and improving brand awareness, are strategically preferable to objectives that are more challenging than important to achieve, such as improving data quality.
The trend for digital marketing budgets continues to increase for a total of 93% of marketing influencers, with 41% describing the increase as significant. This trend may reflect a positive outlook for continued business growth in the year ahead.
Social media marketing, content marketing and the marketing technology that drives these tactics, are most effective for 18%, 17% and 16% of marketing influencers respectively.
Tactical effectiveness is changing in a very promising way for a total of 94% of marketing influencers, with slightly more than half of those (48%) describing the increase in tactical effectiveness as significant.
MOST DIFFICULT TACTICS TO EXECUTE

Two very technical tactics – data management and marketing technology – stand out as difficult to execute. This is primarily due to the fact that the skills, capabilities and resources required to execute these technical tactics are not always available in-house.

What are the most DIFFICULT tactics to execute in a digital marketing plan?

2018 Digital Marketing Plan Survey
Ascend2 and Research Partners, December 2017
RESOURCES USED TO EXECUTE TACTICS

93% of marketing influencers in total say they outsource all or part of the execution of digital marketing tactics to specialists. Nearly two-thirds (63%) consider a collaboration between outsourced and in-house resources the most effective way to execute digital marketing tactics.

Which best describes the RESOURCES used to execute digital marketing tactics most effectively?

- Outsourced to a specialist: 30%
- Combination of outsourced and in-house resources: 63%
- In-house resources only: 7%
Tactics that are much more effective than difficult to execute, such as social media marketing, are more likely to be part of a digital marketing plan than a tactic that is considered less effective than difficult to execute, such as data management. An example of how difficulty can impact perceived effectiveness.
