Methodology

Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them with a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and research subscribers during the week of February 25, 2018.
Email marketing performance is driven by subscriber engagement. The more engaged a prospect or customer is, the more likely they will help boost a company's revenue.

**But how do you improve email engagement today?**

To help you answer this question, Ascend2 and our Research Partners fielded the Email Marketing Engagement Survey. We thank the marketing influencers responding to this survey for sharing their valuable insights with us, and you.

This Survey Summary Report, titled *Email Marketing Engagement*, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.
