**Methodology**

Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them with a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and research subscribers.
Creating demand in a digital world requires a combination of effective strategies to both generate and nurture leads, with the goal of converting them to customers.

But how do you combine strategies to create new demand?

To help you answer this question, Ascend2 and our Research Partners fielded the Generating and Nurturing Leads Survey. We thank the 229 marketing influencers who responded to this survey during the week of July 23, 2018.

This Survey Summary Report, titled *Generating and Nurturing Leads to Create Demand*, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.
