**Methodology**

Ascend2 benchmarks the performance of marketing technology, strategies and tactics using a standardized online questionnaire and a proprietary 3-Minute Survey format. This survey was fielded to a panel of marketing influencers and research subscribers during the week of October 1, 2017.
MARKETING TECHNOLOGY ROI

Marketing has become a technology-driven world.

But what marketing technology strategies and tactics are producing the most significant return-on-investment?

To find out, Ascend2 and our Research Partners fielded the Marketing Technology ROI Survey. We thank the marketing influencers responding to this survey for sharing their valuable insights with us, and you.

This Survey Summary Report, titled Marketing Technology ROI, represents the average of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.

Enjoy!
An important objective for a marketing technology strategy to achieve for more than two-thirds (69%) of marketing influencers is to increase marketing ROI. Marketing technology drives improvements in the next two objectives as well – marketing efficiency and decision-making.

What are the most important OBJECTIVES for a marketing technology strategy to achieve?

- Increase marketing ROI: 69%
- Improve marketing efficiency: 48%
- Improve decision-making: 40%
- Gain competitive advantage: 36%
- Quantify marketing contribution: 30%
- Improve security: 22%
- Integrate disparate systems: 21%
A marketing technology strategy is successful at achieving important objectives for a total of 92% of marketing influencers, with a 52% majority describing their strategic success as best-in-class.
Analytics or predictive modeling, and data management are the technology-driven functions most likely to increase the return-on-investment from marketing technology according to 50% and 45% of marketing influencers respectively.
IMPACT ON ROI

Marketing technology is having a noteworthy impact on ROI. A total of 97% of marketing influencers say return-on-investment is increasing, with a 52% majority describing the increase as significant.

To what extent is marketing technology having an impact on ROI?

- 52% ROI is increasing significantly
- 45% ROI is increasing marginally
- 3% ROI is decreasing marginally
- 0% ROI is decreasing significantly

Marketing Technology ROI Survey
Ascend2 and Research Partners, October 2017
While budget availability is a top challenge to overcome, the good news is that 94% of marketing influencers plan to increase the budget for marketing technology in the year ahead, with 43% describing the increase as significant.

To what extent will the marketing technology BUDGET change in the year ahead?

- **43%** Budget will increase significantly
- **51%** Budget will increase marginally
- **5%** Budget will decrease marginally
- **1%** Budget will decrease significantly

Ascend2 and Research Partners, October 2017
TIME TO ROI

Nearly four-out-of-ten (39%) of marketing influencers believe a reasonable time-frame from the implementation of a marketing technology system to achieving ROI should be 4 to 6 months. A total of 93% believe ROI should be achieved in less than a year.

What is a reasonable TIME-FRAME from implementation to return-on-investment for marketing technology?

- 3 months or less: 25%
- 4 to 6 months: 39%
- 6 months to 1 year: 29%
- More than 1 year: 7%
IMPLEMENTATION RESOURCES

A total of 91% of marketing influencers say marketing technology implementation should be outsourced to some extent. Outsourcing provides technical capabilities not always available internally, while in-house resources provide subjective knowledge – a valuable collaboration.

Which best describes the RESOURCES used to implement marketing technology?

- Outsourced to a specialist: 31%
- Combination of outsourced and in-house resources: 60%
- In-house resources only: 9%
