**Methodology**

Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them with a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and marketing research subscribers.
Planning and deploying a marketing strategy will benefit from an objective point of view and skills that may not be available in-house.

But how will you choose the right resources to optimize results?

To help you answer this question, Ascend2 and our Research Partners fielded the Marketing Resource Effectiveness Survey. We thank the 227 marketing influencers who responded to this survey during the week of December 16, 2018.

This Survey Summary Report, titled *Marketing Resource Effectiveness*, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.
About three-quarters of marketing influencers consider a collaboration between outsourced and in-house resources a valuable combination of objective and subjective insights for both planning and deploying a marketing strategy.

Comparing resources used for planning and deployment.

- **Outsourced to a specialist:**
  - Planning: 10%
  - Deployment: 13%

- **Combination of outsourced and in-house resources:**
  - Planning: 73%
  - Deployment: 75%

- **In-house resources only:**
  - Planning: 17%
  - Deployment: 12%
PRIMARY OBJECTIVES

Increasing the number of leads, sales prospects and customers acquired, and improving brand awareness, are all primary objectives for a marketing strategy according to a majority of marketing influencers.

What are the PRIMARY OBJECTIVES for a marketing strategy to achieve?

- Increasing leads/sales prospects: 64%
- Improving brand awareness: 61%
- Increasing customer acquisition: 61%
- Improving engagement/nurturing: 34%
- Improving user experience (UX): 20%
- Increasing marketing technology: 15%
- Improving multi-channel analytics: 15%
About one-third (34%) of marketing influencers believe a marketing strategy is very successful at achieving the primary objectives which, as previous data shows, is best planned and deployed by a combination of internal and external resources.

How SUCCESSFUL is a marketing strategy at achieving the primary objectives?

- Very successful (best-in-class), 34%
- Somewhat successful, 62%
- Not successful, 5%
An important challenge to the success of a marketing strategy for 53% of marketing influencers is the inability to help increase the number of customers acquired. The reveals the importance marketers place on aligning their efforts with sales goals.
Objectivity, or the ability to see the forest for the trees, is a valuable commodity when it comes to planning a marketing strategy. That’s why so many marketers (73%) use a combination of outsourced and in-house resources to plan a strategy.

Which best describes the RESOURCES USED TO PLAN a marketing strategy?

- Combination of outsourced and in-house resources, 73%
- Outsourced to a specialist, 10%
- In-house resources only, 17%
A thoughtful analysis of objectives in comparison to how important they are as a challenge to success will improve the odds of developing a successful marketing strategy.

Marketing Resource Effectiveness Survey
Conducted by Ascend2 and our Research Partners
Published January 2019
Social media marketing, content marketing and SEO are effective tactics for 53%, 48% and 47% of marketing influencers respectively. While email has been integrated into virtually every form of digital marketing, it no longer tops the chart as a stand-alone tactic.

As marketers become more proficient in all forms of digital marketing practices and technologies, the effectiveness of tactics used is increasing. A total of 94% of marketing influencers believe that the effectiveness of tactics is improving to some extent.
DIFFICULT TACTICS TO DEPLOY

While a previous chart shows only 25% of marketing influencers consider data and artificial intelligence-driven marketing to be a most effective tactic, 49% consider it a difficult tactic to deploy. This may be a case of difficulty impacting effective use.

DEPLOYMENT RESOURCES USED

Extremely technical tactics such as data and AI-driven marketing, often require skills and capabilities not found in-house. That’s one reason why 75% of marketers say they use a combination of outsourced and in-house resources to deploy tactics.

Which best describes the RESOURCES USED TO DEPLOY the tactics used in a marketing strategy?

- In-house resources only, 12%
- Outsourced to a specialist, 13%
- Combination of outsourced and in-house resources, 75%
EFFECTIVENESS VERSUS DIFFICULTY

Social media marketing is far more effective than difficult to perform. Conversely, data and AI-driven marketing is far less effective than difficult. Difficulty is often the reason for excluding the deployment of a valuable tactic from a marketing strategy.
