Methodology

Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them with a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing influencers and marketing research subscribers.
A marketing data dashboard is a tool used to visualize KPIs (Key Performance Indicators) about the impact of marketing efforts in a way that is immediately understood.

**But what are the strategies, tactics and trends for visualizing marketing data with dashboards?**

To help you answer this question, Ascend2 and our Research Partners fielded the Visualizing Marketing Data with Dashboards Survey. We thank the 307 marketing influencers who responded to this survey during the week of April 21, 2019.

This Survey Summary Report, titled Visualizing Marketing Data with Dashboards, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.
PRIMARY OBJECTIVES

Improving marketing decision-making is a primary objective for a 55% majority of marketing influencers. While nearly half (49%) say improving the efficiency of marketing is a primary objective for a marketing data dashboard strategy to achieve.

What are the PRIMARY OBJECTIVES for a marketing data dashboard strategy to achieve?

- Improving marketing decision-making: 55%
- Improving efficiency of marketing: 49%
- Improving usefulness of marketing data: 44%
- Attributing revenue to marketing efforts: 43%
- Increasing speed/ease of analyzing data: 40%
- Improving the integration of data systems: 16%
- Achieving a unified view of an individual: 14%
STRATEGIC SUCCESS

43% of marketing influencers say that a marketing data dashboard strategy is very successful (or best-in-class when compared to competitors). Add another 54% who say it is somewhat successful, and you have nearly all (97%) achieving success to some extent.

Which best describes the SUCCESS of a marketing data dashboard strategy?

- Very successful (best-in-class), 43%
- Somewhat successful, 54%
- Unsuccessful, 3%

BUDGET TREND

A total of 84% of marketing influencers say the total budget (time, resources and expense) is increasing to some extent, with the 70% majority describing the increase as moderate.

Which best describes how the TOTAL BUDGET (time, resources, expenses) is changing for a dashboard?

- Total budget will increase significantly: 14%
- Total budget will increase moderately: 70%
- Total budget will decrease moderately: 13%
- Total budget will decrease significantly: 3%

OBJECTIVES VERSUS CHALLENGES

Objectives that are far more important than challenging to achieve (e.g. improving marketing decision-making) are more likely to be included in a dashboard strategy than are the more challenging than important objectives (e.g. improving the integration of data systems).

Analyzing primary objectives versus critical challenges.

IMPLEMENTATION STATUS

More than four-out-of-ten marketing influencers (41%) say that the implementation of their marketing data dashboard is currently in progress, while 17% say their dashboard is planned for implementation in the coming year. Only 14% have no plans.

Which best describes the IMPLEMENTATION STATUS of a marketing data dashboard?

- Dashboard completed and in use: 28%
- Dashboard implementation in progress: 41%
- Dashboard is planned for next year: 17%
- Not planning to implement a dashboard: 14%

As previously shown, understanding what the right metrics (or KPIs) are is critical to effective dashboard design. Tracking the return on marketing investment (marketing ROI) is a most important KPI for a 56% majority of marketing influencers.
Nearly six-out-of-ten marketing influencers (59%) prefer a collaborative approach, combining the skills and experience of outsourced and in-house resources, to designing and implementing a marketing data dashboard.

Which best describes the RESOURCES USED to design and implement a marketing data dashboard?

- Combination of outsourced and in-house resources, 59%
- Outsourced to specialists, 13%
- In-house resources only, 28%
