- Vice President / Director / Manager: 29%
- Non-Management Professional: 19%
Building Relationships for Lead Conversion

Considerable shifts in the way businesses operate are leading marketers to re-examine the way they approach lead generation. Building meaningful connections with buyers is now a critical part of generating and nurturing leads that convert.

But how are marketers building relationships for maximum lead generation and conversion?

To help you answer this question, Ascend2 and our Research Partners fielded the Building Relationships for Lead Conversion Survey. We thank the 263 marketers who responded to this survey during the week of June 8, 2020.

This Survey Summary Report, titled Building Relationships for Lead Conversion, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.

Most Effective Channels

Social media is a channel that allows marketers to reach new leads and build trust with existing prospects and customers. That is why 58% of those surveyed say that social media is a most effective channel for building relationships for lead conversion. Nearly half of marketers (49%) say that the tried and true email marketing channel is most effective.

What are the most EFFECTIVE CHANNELS for building relationships for lead conversion?
When building relationships for lead generation and conversion, it is important for tactical effectiveness to be closely aligned with budget dispersement. By comparing the two side-by-side, it is clear that marketers are evaluating tactical effectiveness and spending their time, money and other resources accordingly.
