PUT THIS CONTENT TO GOOD USE!
Ascend2 benchmarks the performance of marketing strategies, tactics and the technology that drives them with a standardized online questionnaire and a proprietary 3-Minute Survey format.

This survey was fielded to a panel of marketing professionals and marketing research subscribers.

**METHODOLOGY**

**SURVEY RESPONDENTS**

N = 378 Marketing Decision-Makers

**Primary Marketing Channel**

- B2B (Business-to-Business) 25%
- B2C (Business-to-Consumer) 51%
- B2B and B2C Equally 24%

**Number of Employees**

- More than 500 19%
- 50 to 500 29%
- Fewer than 50 52%

**Primary role in company**

- Owner / Partner / C-Level 50%
- Vice President / Director / Manager 33%
- Non-Management Professional 17%
Email is one of the oldest digital channels available to marketers today. But new technology is changing the way email is used for marketing.

So how are marketing professionals using Artificial Intelligence (AI) in email marketing?

To help answer this question, Ascend2 and our Research Partners fielded the Email Marketing & AI 2023 survey. We thank the 378 marketers who responded to this survey during the week of July 17, 2023.

Email Marketing: Strategies, Tactics, and Trends

This Survey Summary Report, titled Email Marketing & AI 2023, represents the opinions of all the market segments responding to the survey. Specific market segments from the survey are reported on separately and exclusively by our participating Research Partners.

This research has been produced for your use. Put it to work in your own marketing strategy. Clip the charts and write about them in your blog or post them on social media. Please share this research credited as published.
Email marketing could be considered a "dinosaur" in terms of digital marketing channels, yet only one-quarter of marketing professionals surveyed feel that they are executing very successful, or best-in-class, email marketing programs. Another 64% report some success from their email strategy indicating that there is still ample room for improvement as businesses execute email.

**HOW WOULD YOU RATE THE OVERALL SUCCESS OF YOUR EMAIL MARKETING STRATEGY IN ACHIEVING OBJECTIVES?**

- **VERY SUCCESSFUL (BEST-IN-CLASS)**: 25%
- **SOMewhat SUCCESSFUL**: 64%
- **UNSUCCESSFUL**: 11%
Most tactics and trends included in email programs have not changed significantly since 2022, however there is one standout category that has garnered more attention of marketers in the past year. Twice as many marketers expect AI to be used in their marketing strategy this year compared to last year with 30% of those surveyed reporting the use of AI to be included in their marketing program in the year ahead (vs 16% last year).
**MOST IMPORTANT EMAIL TESTS**

Interactive content and landing pages are both considered to be less important to marketers this year when it comes to testing email components. Testing messaging such as the greeting, body, and closing of email as well as subject line and content elements are considered to be the most important email-related tests to perform according to 43%, 38%, and 34% of marketers surveyed, respectively.

THE USE OF AI IN EMAIL

While 11% of marketers report the extensive use of AI in their email marketing campaigns, another one-quarter (24%) of those surveyed report some current use and one-third (33%) say they have plans to use AI for email in the future. Just over one-quarter (28%) of marketing professionals are not using AI and do not have plans to implement it into their email strategies in the future.
For the 68% of marketers who report current or planned use of AI in their email strategy, over half (55%) say they use (or plan to use) it for email retargeting and another 53% for content personalization. Subject line optimization, dynamic content generation, and automated segmentation are also popular areas of use according to 44%, 42%, and 40% of marketers surveyed, respectively.

AI CAPABILITIES WISHLIST

What would marketers like to have the ability to do with AI for email? Over half of all marketers surveyed report that having enhanced personalization algorithms and recommendation engines would top their list. Nearly half would like AI features that automate content creation and copywriting and improved predictive analytics and consumer behavior modeling.

WHICH OF THE FOLLOWING AI CAPABILITIES OR FEATURES WOULD BE MOST HELPFUL IN EMAIL MARKETING PLATFORMS?

- Enhanced personalization algorithms and recommendation engines: 51%
- Automated content creation and copywriting: 47%
- Improved predictive analytics and customer behavior modeling: 46%
- Better integration with CRM and other marketing tools: 40%
- Advanced testing and optimization functionalities: 36%
What is to come for AI and the role it plays in email marketing? One-third (32%) of all marketers surveyed expect AI to play a central role in all aspects of email marketing in the future and another 40% believe that AI will have a significant role but do not feel that it will replace human creativity and strategy. 12% say that AI will have limited applications in email marketing.

CUSTOMIZED B2B RESEARCH
delivered to you with a plan to use it.

We find the right audience, ask the right questions, and gather insightful data to create useful and affordable research that will help you generate demand and increase engagement.

Join the industry powerhouses that use Ascend2 to create compelling research content that speaks to their audience.

WORK WITH US
Don't just take it from us...
Here's what some of our customers have to say.

“I highly recommend Ascend2 for any research projects in the B2B marketing space. Coming from a heavy academic-research background myself, I’m quite demanding when it comes to fielding and analyzing market surveys. Intentsify had very specific goals in mind to support multiple use cases with original research. Todd and Jenna of Ascend2 had the requisite knowledge, skills, and resources to achieve our weighty objectives. Further, the program was affordable (even for an early-stage startup), and the results to date are already surpassing our ROI goals.”

-David Crane, VP Marketing, Intentsify

“Ascend2 was a pleasure to work with and helped us to design a thoughtful survey that uncovered truly actionable and noteworthy findings. They work smart and fast and even helped to promote and place the research results at launch. Ascend2 is at the top of our list for future projects."

-Nick Olsson, CEO, Olsson Communications

“On a hunch that original, empirical research could boost engagement with my audience, I contracted Ascend2 and Todd Lebo to provide a study on the most effective tactics being employed by B2B marketers. The research was delivered on time in an easily workable format, and any minor corrections were handled with rapid turnaround and excellent customer service. In the end, the research deliverable ended up influencing hundreds of thousands of dollars in closed-won business, achieving an 85x ROI on the purchase price of the research. I am extremely impressed with Ascend2 and will use them again any time I require original research on industry influencers for my marketing campaigns."

-Jonathan Greene, Director of Marketing, LeadCrunch

“Good news to report back to you – we are seeing a lot of success with the leads we have gotten, not only from you but from the report in general (website, our emails, ads, etc.). My CEO is super pleased.”

-Emily Wingrove, Director of Marketing, Synthio
